## Virtual Learning Pre-Program Activities

### "Animal Teamwork"

We can't wait to see you virtually for our fun and engaging "Animal Teamwork" program.

Below we've provided two exciting activities you can do in advance of your program. The activities aren't required but are just a fun way to get ready for the program.

Try one or both of the activities and share them with the DMNH Educator at the program.

#### **Craft:**

#### **Vervet Monkey Habitat**

One of the program activities is a game about how vervet monkeys work together to stay safe in their habitat. Color and cut out the following three coloring pages. You can then use them in the game!

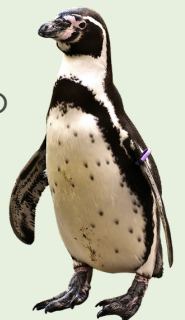

#### **Citizen Science:**

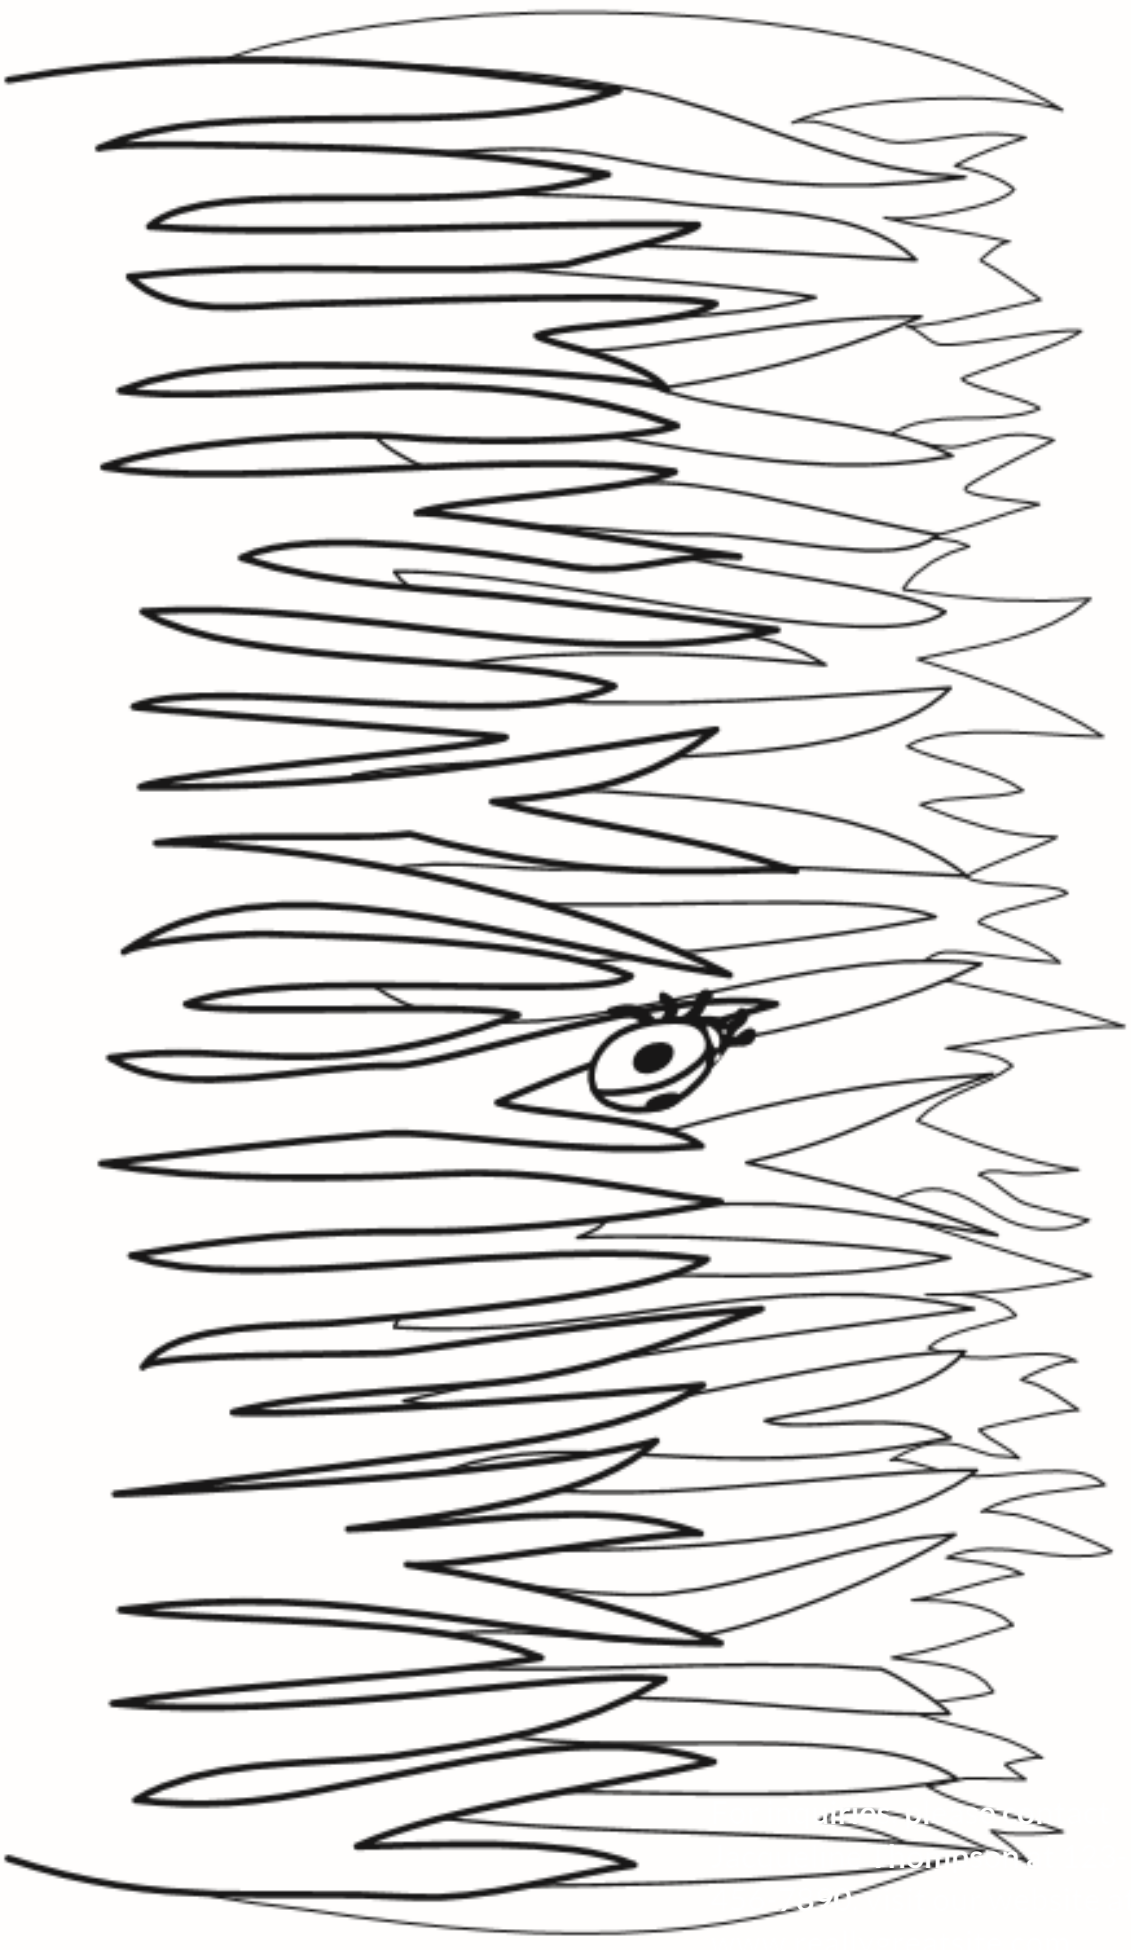

#### **Penguin Watch**

We will be talking about polar animals during the program. Learn about penguins and help researchers study penguin populations with "Penguin Watch" at Zooniverse.

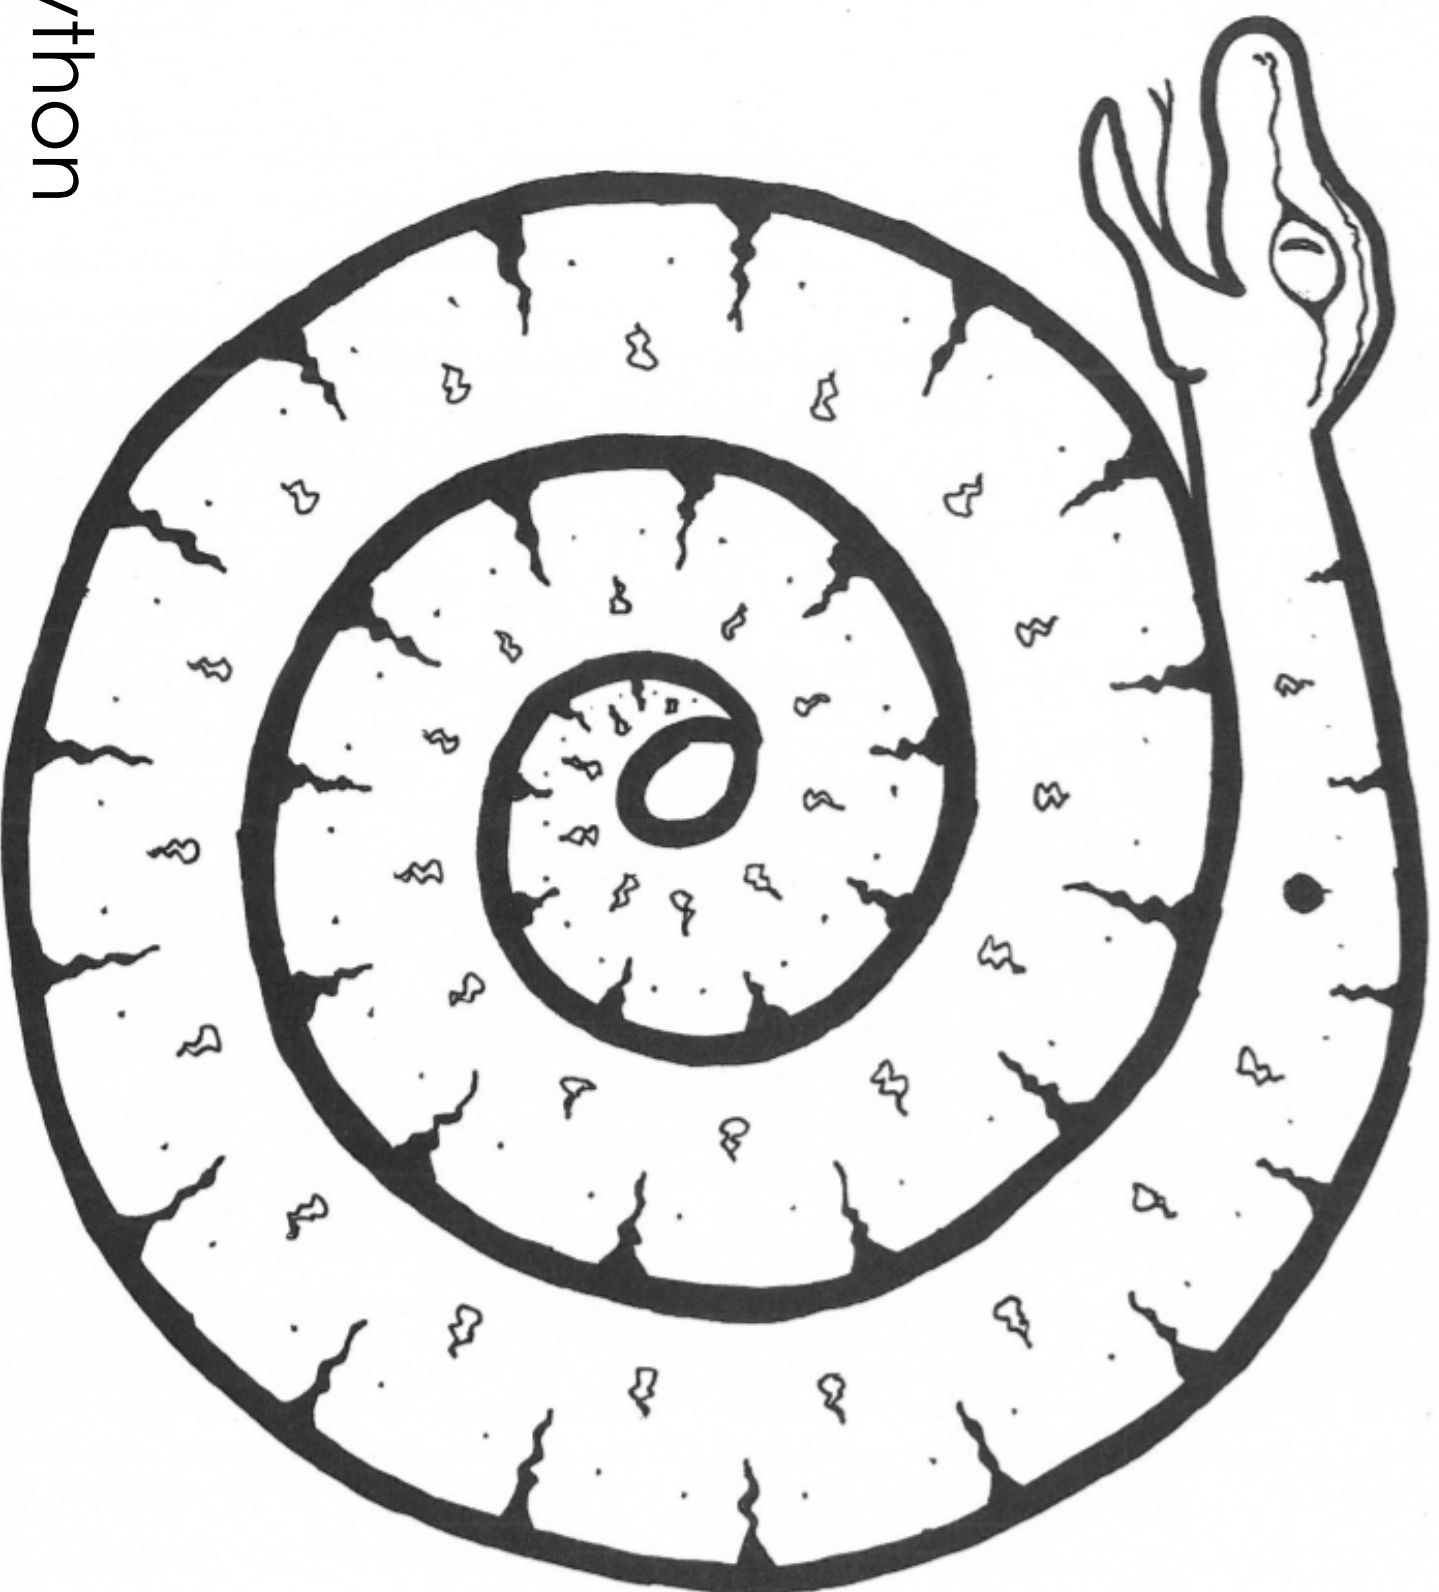

Follow the link below to help out and become a citizen scientist!
